2016

Connect, Collaborate, Create

6–8 September 2016, University of Warwick, UK

The conference provides an international platform for Learning Technology research, practice and policy work from across sectors.

The themes for the conference are:

- ◇ Connecting data and analytics to enhance learning and teaching: exploring possibilities and making links.
- ◇ Collaboration and innovation in the open: taking risks, sharing lessons and the importance of open practice.
- ◇ Creating new learning, teaching and assessment opportunities: play, experiment, discover, embed to enhance learner experiences.
