

An aerial night photograph of a city. In the center is a modern, multi-story glass building with a curved facade, illuminated from within. To its right is a tall, Gothic-style clock tower with a large illuminated clock face. The sky is dark with some clouds, and city lights are visible in the background. The text "#altc 2017" is overlaid in white on the image.

## Beyond islands of innovation – how Learning Technology became the new norm(al)

5–7 September 2017, University of Liverpool, UK

The 24th Annual Conference of the Association for Learning Technology will bring together practitioners, researchers and policy makers from across sectors. Together we will chart the development of Learning Technology from isolated islands of 'innovation' to becoming the new norm – and the challenges this entails for staff and learners alike. We will explore how we move from individual innovation to institutional integration at scale.

Conference themes:

- ◇ Empowerment in Learning Technology
- ◇ Virtual and physical Learning Spaces for Learning Technology
- ◇ Moving from the practical to the 'publishable'
- ◇ Practice informed by learning analytics
- ◇ Wildcard

Co-Chairs

**Pete Alston**

Pete is a Lecturer in Learning Technology in the School of Life Sciences at the University of Liverpool. Providing strategic direction on the use of TEL to

support the student experience within the School, he also co-chairs the University's TEL Research Group.

**Helen O'Sullivan**

Helen O'Sullivan is Associate Pro-Vice-Chancellor for Online Learning at University of Liverpool. With responsibility 'Liverpool Online' – a partnership between University of

Liverpool and Laureate Online Education to deliver wholly online post-graduate programmes – she also acts as champion for technology enhanced learning within the University.
